Diagnose

Pinpoint student needs down to the sub-skill level

The adaptive online diagnostic is a universal screener which provides a comprehensive analysis of student's strengths and weaknesses across multiple grade level.

- gets to the "why" of student challenges
- meets students at his level, so he feels like he's succeeding
- gives teachers an instructional action plan

Instruct

Deliver explicit online individualized instruction

The online instruction component gives student the individual support he needs to meet grade-level requirements in an engaging, exciting way.

- creates and delivers a differentiated instruction plan for every student automatically
- boosts student's confidence by delivering explicit instruction at his level
- lessons follow predictable best practice: explicit instruction, guided practice, progress monitoring

Teacher-Led Instruction

STARS, CARS, STAMS, and CAMS

- provides downloadable lessons to help meet individual student or small groups' needs

Monitor

See progress for each student, class, grade level, and school

The powerful reporting capabilities help an administrator understand how students across grade level are responding to classroom and online instruction.

- measures gains at student, class, grade level and entire school
- monitors program usage
